

MVIS Introduction

Change.

It has become the theme of our time.

And for those who invest,

A formidable ocean to navigate.

Fleeting trends, countless investment opportunities and promises of capturing the moment,

..Have left the best, pondering the right move.

The truth is, even the best investment ideas, need to be crafted to capture the pureness of the opportunity.

The vision, clarity and reliability of an index, are what truly set it apart, and not all indexes are created equally.

At MVIS, we design indexes that capture the unique potential of today, as well as where the world is heading tomorrow:

Just imagine what our world looks like when changes in communication, robotics and logistics are in full bloom....

Or how rapidly the physical world of gaming, sports and shopping is moving online.

And as decentralized finance and the block chain take momentum, how will it change the flow of assets globally?

As we transition to a green infrastructure, how will massive developments in Solar, Wind, Hydrogen and Fuel Cells affect our economy?

And as the world returns to normal and we return to the world, how will our investment choices change?

Our goal is to bring clarity, expertise and empowerment to the world of investing.

It is not possible to invest directly in an index. Exposure to an asset class represented by an index is available through investable instruments based on that index. MVIS does not sponsor, endorse, sell, promote or manage any investment fund or other investment vehicle that is offered by third parties and that seeks to provide an investment return based on the performance of any index. MVIS makes no assurance that investment products based on the index will accurately track index performance or provide positive investment returns. MVIS is not an investment advisor, and it makes no representation regarding the advisability of investing in any such investment fund or other investment vehicle. A decision to invest in any such investment fund or other investment vehicle should not be made in reliance on any of the statements set forth in this document.

Prospective investors are advised to make an investment in any such fund or other vehicle only after carefully considering the risks associated with investing in such funds, as detailed in an offering memorandum or similar document that is prepared by or on behalf of the issuer of the investment fund or other vehicle. Inclusion of a security within an index is not a recommendation by MVIS to buy, sell, or hold such security, nor is it considered to be investment advice.
